

User Access Levels & Features

Technology Stack

- **MERN** (MongoDB, Express, React, Node.js)
- **Tailwind CSS** for styling
- **WebSockets** for real-time updates
- **Multer** for image uploads

Access Levels

1. Super Admin

- Full access to all features

2. Admin

- **Lead Management:** Enter leads, search leads
- **User Management:** Create and manage users
- **Orders:** View all orders, new orders, create work orders (customer details, dimensions, notes, reference images, etc.)
- **Customers:** View all customers, individual customer pages
- **Contact Directory:** Import/export contacts (contacts may or may not be customers)
- **Gallery:** Full access
- **Work Queue:** View and manage work
- **Accounts:** View financial details
- **Order Management:**
 - Auto-fill customer details for repeat customers
 - Generate unique Order IDs
 - Individual order pages
 - Update order statuses

3. Graphics

- **Orders:**
 - View assigned orders
 - Access individual order pages (order ID & requirements only)
 - Update order status (except for "Completed")
- **Gallery:** Full access
- **Work Assignment:**

- Orders are auto-assigned to available designers
- Back-and-forth workflow with Admin:
 - Once a design is complete, it goes to Admin for approval
 - If rejected, it returns to Graphics with remarks
- **Approval Process:**
 - Once approved, the order moves to the **Work Queue** (Display Only Access)

4. Display

- **Access Types:**
 - Individual accounts (for assigned work)
 - Common display account (shows all completed Graphics work)
- **Workflow:**
 - Jobs are **auto-assigned in serial order** (Admins can manually assign work too)
 - Once a job is finished, **only Display personnel can mark it as Completed**

5. Accounts

- **Access to Completed Job Details** only
- **Status Updates:**
 - Can mark jobs as **Billed or Unbilled**
 - Can update payment status to **Paid or Unpaid**
